TUBE SERVICE COMPANY ROHS STATEMENT

European Environmental Legislation – RoHS 2002/95/EC

The RoHS Directive is a European Environmental Legislation with the intent of limiting the amount or presence of hazardous substances in electronic devices. Six substances: Lead (pb), Mercury (Hg), Cadmium (Cd), Hexavalent Chromium (Cr6+), Polybrominated Biphenyls (PBB) and Polybrominated Diphenyl Ether (PBDE) have been identified as those who's content must be limited.

Tube Service Company does not currently sell materials that contain un-allowable levels of Mercury, Cadmium, Hexavalent Chrome or Polybrominated substances. Lead is allowed in steels up to .35% by weight and aluminum up to .4% by weight with copper up to 4.0% by weight. With rare exception, our current products are compliant to the RoHS Directive.

Tube Service Company is a distributor of raw metallic materials and as such cannot sign a blanket statement stating everything purchased from our inventory is Lead Free. If our customers request product with a higher lead content, we can supply the item, but the customer must assume responsibility for those items specified / requested.

Sincerely,

A handwritten signature in black ink that reads "Bryan J. Reynolds".

Bryan J. Reynolds
Quality/ISO Coordinator
