Dear Customer(s):

### **European Directive 2011/65/EU Restriction of Hazardous Substances (RoHS 2)**

As you may be aware, a new European Directive is currently being implemented globally and in preparation for this new directive, we at ITW Polymers Adhesives, North America must ensure that we, along with all of our suppliers, are in compliance. The Restriction of Hazardous Substances (RoHS 2), Directive 2011/65/EU restricts the use of hazardous substances as part of the European Union's horizontal hazardous waste legislation. The substances, which are restricted, are as follows:

1. **Cadmium (Cd)** – Maximum level 0.01% of homogenous material by weight
2. **Mercury (Hg)** – Maximum level 0.1% of homogenous material by weight
3. **Lead (Pb)** – Maximum level 0.1% of homogenous material by weight
4. **Hexavalent Chromium (Cr VI)** – Maximum level 0.1% of homogenous material by weight
5. **Polybrominated Biphenyls (PBB)** – Maximum level 0.1% of homogenous material by weight
6. **Polybrominated Diphenyl Ethers (PBDE)** – Maximum level 0.1% of homogenous material by weight

We are pleased to confirm the composition of the listed product(s) accompanying this letter complies with the European Directive 2011/65/EU. This conclusion is based on the following facts: none of the listed substances are used as raw materials in our production processes, none of the listed substances are expected to form during the reaction process, and verification by an independent testing laboratory.

This information herein is provided in good faith and environmental due diligence; and is based on the best of our knowledge according to the information provided by suppliers and independent testing.

ITW Polymers Adhesives, North America assumes no responsibility or liability for how the information is used and the manner in how this information is updated, and makes no other expressed or implied warranty. Your company is solely responsible for compliance with all international, federal, state, and local laws.

Sincerely,

*Joseph A. Fulliero*
