Statement of RoHS Compliance

Eagle Alloys Corporation is committed to ensuring that our products comply with all applicable laws, rules and regulations to meet environmental regulations. As a global company, we make sure that all of our suppliers are committed to meeting the requirements of the European Commission (EC) directive 2002/95/EC (the RoHS Directive), including all the revised and recast Directives up to 2011/65/EC ("RoHS 2"), along with similar regulations which restricts the use of the hazardous substances (listed below), on established threshold limits for Lead, Mercury, Cadmium, Hexavalent Chromium, PBB, and PBDE.

We support our customers' requirements to maintain compliance to RoHS limits and values for Homogeneous Materials.

<i>Restricted Substance</i>	<i>Maximum Threshold Limit</i>
<i>Cadmium and its compounds</i>	<i>100 ppm (0.01 weight %)</i>
<i>Mercury and its compounds</i>	<i>1000 ppm (0.1 weight %)</i>
<i>Hexavalent chromium and its compounds</i>	<i>1000 ppm (0.1 weight %)</i>
<i>Lead and its compounds *</i>	<i>1000 ppm (0.1 weight %)</i>
<i>Polybrominated biphenyls (PBB)</i>	<i>1000 ppm (0.1 weight %)</i>
<i>Polybrominated diphenyl ethers (PBDE)</i>	<i>1000 ppm (0.1 weight %)</i>
<i>Decabromine diphenyl ether (DECA BDE)</i>	<i>1000 ppm (0.1 weight %)</i>

****Except when allowed by the Directive. For example, 3500 ppm in steel, 4000 ppm in aluminum alloys and 40000 ppm in copper alloys.***

For these purposes, RoHS compliant means that:

1. Our suppliers have confirmed the compliance status of the relevant products to us in their Material Safety Data Sheets (MSDS) or in their Statement of RoHS Compliance.

2. We have implemented processes to maintain relevant documents to support this.

Confirmation of compliance status by our suppliers shows that their products do not contain any of the restricted substances referred to in Article 4(1) of the RoHS Directive at concentrations in excess of those permitted under the current RoHS Directive.

To the best of our knowledge, none of our suppliers use these banned substances to manufacture their products. Our statements in this letter regarding RoHS compliance and lead content do not extend to, or apply to any product subjected to unintended contamination, misuse, neglect, accident, or improper handling.

Based on the information provided by our suppliers, and to the best of our knowledge, Eagle Alloys Corporation, designates that our products are RoHS Compliant and conform to the European Unions Restrictions of the use of Hazardous Substances (RoHS) including all amendments to date.

Karina Mosier QA Dated: 2/22/2017

Eagle Alloys Corporation.
